

RESOLUTION NO. 2011-02
RESOLUTION FOR LAYOUT APPROVAL

At a Meeting of the City Council of the City of Grant held on the 1st day of February 2011, the following Resolution was offered by Council Member Huber and seconded by Mayor Carr to wit:

WHEREAS, the Commissioner of Transportation has prepared a final layout for improvements to the intersection of TH 36 at Hilton Avenue, and also to the 60th Street frontage road, which is partly within the City of Grant; and seeks approval thereof; and

WHEREAS, said final layout is on file in the Minnesota Department of Transportation office, Waters Edge, Roseville, Minnesota, being marked, labeled and identified as Layout No. 1, T.H. 36 Vicinity of Pine Springs (Wash. Co.) from 1-694 to Demontriville Trail. and

WHEREAS, Submitted to the city for approval is "Layout 1" dated November 2010, for the reconstruction of the signalized intersection of Highway 36 at Hilton Trail to be a grade separated interchange. and

WHEREAS, The project is intended to improve safety and traffic flow for users of Highway 36, Hilton Trail, and nearby residents and businesses. and

Part of the project includes the connection of 60 _____ (the frontage road north of Highway 36) by construction of a bridge over the Gateway Trail. Plans call for 60th Street to be directly connected to the roundabout at the interchange. This will provide for easier and safer access for users of the frontage road, and Highway 36, east of the Gateway trail, in Grant. The two existing access connections from the frontage road directly to Highway 36, east of the Gateway Trail, and at Highlands Trail, would be closed, since access to those areas would be served by the new 60th Street connection to the interchange.

NOW, THEREFORE, BE IT RESOLVED that said final layout for the improvements of said Trunk Highway within the corporate limits be and is hereby approved".

The following Council Members voted in favor of the Resolution:

Bohnen, Fogelson, Huber, Potter and Mayor Carr

The following Council Members voted against its adoption: None
